The River

Maybe you've tried church before . . .

Maybe the songs were a little too slow, with words that seemed like they were from another planet. Maybe the pastor's talk was filled with too many do's and don'ts. Maybe no one really paid much attention to you.

The River is a new kind of church—one for people who've never tried church or who have given up on it. You'll find contemporary music played by a band. You'll find the pastor's talk speaks to life where you live it every day, with words of encouragement and hope. You'll find people who genuinely care about you.

And you'll have an opportunity to meet God in a new way.

The River—give it a try this Sunday.
